DETAILED ACTION

Response to Arguments

1. In view of applicant's amendment, the claim rejection under 35 USC §112, second paragraph and the claim objection have been withdrawn. Thus, applicant's arguments in this regard are rendered moot. Regarding claims 13-14, applicant's assertions are correct in that claims 13-14 were allowed in the previous action and inadvertently included in the 112 rejection. Any confusion in this respect is regretted.
2. Applicant's arguments in view of the amendment filed, with respect to 15 December 2005 have been fully considered and are persuasive. The §§ 102 & 103 rejections over FRATTINI have been withdrawn.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 1-3, 5-7, 9-12 & 16-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed "movable member" is not described in the specification and is considered new matter.

5. Claims 1-3, 5-7, 9-12 & 16-30 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a spring biased movable member, does not reasonably provide enablement for the broader language of a "movable member". The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make or use the invention commensurate in scope with these claims. Applicant's disclosure is not enabled for other types of movable members other than a spring biased movable member. Accordingly, the attempt to claim the genus (i.e. all movable members) when only a particular species is claimed (i.e. a spring biased movable member) has resulted in the scope of enablement rejection.

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 24, the preamble is directed to a "cleaner assembly". However, the body of the claim does not positively recite any cleaning means nor does applicant's original disclosure support any description of cleaning other than ultrasonic cleaning. Thus, it is unclear what is meant by "cleaner assembly". Clarification and correction are required.

Allowable Subject Matter

8. Claims 13-14 are allowed.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

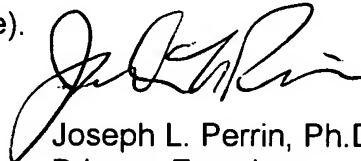

10. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
